Details: *This is a fun time of shooting BIG guns. Bring your African Express rifles, double rifles, and bore guns (sighted-in, sporting arms only, please). There will be some light competition and just a lot of plain old shooting. We typically shoot till around sunset, put away the guns, and then “fire up” the grill. Favorite beverages are broken out and the serious “story telling” begins. This has sort of turned into a “wild game feed”, but if you don't have any game meat, bring what you have. Don't forget the hearing and eye protection, sunscreen, bug dope, eating utensils, and a camp chair.*
